

Automatic BOTTLEMATE Bottle Label Applicators

**Automatically Apply Labels to Bottles and Other Cylindrical Objects
with the touch of a button!**

The Automatic BOTTLEMATE Series by Labelmate enables you to label all kinds of cylindrical items by simply inserting the item and pressing a foot switch. Once the foot switch is activated the label is applied at over 4.5" per second, and most items are labeled in less than 2 seconds! This allows you to quickly remove the item and insert another. Once a rhythm is established containers are labeled very quickly. Automatic BOTTLEMATE Label Applicators can label products at speeds of up to 1200 pieces per hour!
